Re: Canadian Fertilizer Label Assessment

[REDACTED], on behalf of SJ Enterprises PTD LTD, was requested to review, assess and provide feedback on the following products for compliance under the Canadian Fertilizers Act and Regulations administered by the Canadian Food Inspection Agency (CFIA) Fertilizer Safety Section.

The current product labels along with the formulations were provided for the assessment by [REDACTED] along with the Canadian Food Inspection Agency Fertilizer Safety Section.

The products identified below according to the information provided are exempt from a pre-market assessment and registration by the CFIA's Fertilizer Safety Section as they meet the definition of Specialty Fertilizers. The labels as drafted appear to be fertilizers as defined under the Fertilizers Act and Regulations [Fertilizer is defined in the *Fertilizers Act* as "any substance or mixture of substances, containing nitrogen, phosphorus, potassium or other plant food, manufactured, sold or represented for use as a plant nutrient"], and as labelled they meet the definition of Specialty Fertilizers [Specialty fertilizers (a fertilizer recommended for use only on household plants, urban gardens, lawns or golf courses or in nurseries or greenhouses) [Section 3.1(3)(g) *Fertilizers Regulations*]].

- Cyco Swell 1-5-3
- Cyco DR. Repair 3-0-0
- Cyco Potash Plus 0-4-6
- Cyco Grow B 2-2-6
- Cyco Grow A 2-0-0
- Cyco XL 0-40-0
- Cyco Bloom B 1-5-6
- Cyco Bloom A 3-0-2

[REDACTED]

Registered company name [REDACTED]

The product listed below does not meet the definition a fertilizer or supplement and is exempt from the Fertilizers Act:

Cyco Zyme

Please note that as part of Fertilizer Program Regulatory modernization, it is expected that the Specialty Fertilizer exemption will be eliminated and the products currently falling under that exemption may at that time require registration.

If you should have any questions or concerns, please do not hesitate to contact us.

Kindest regards,

[REDACTED]
